keyboard dims:	53"(L) x 9.5"(W) x 4"(H) 134.6 x 24 x 10 cm
wgt:	unit alone: 22 lbs. (10 kg) w/package 25 lbs (11 kg)

The Keystation 88es is an 88-key, semi-weighted action USB MIDI controller with velocity sensing that's perfect for performance, computer-centric recording, and education. Space-age design and rugged construction deliver incredible feel and stability in a package that is light enough for pros to carry under one arm, yet elegant enough for home environments. The Keystation 88es is compatible with all standard music software on both Mac and PC, and class-compliance with Windows XP and Mac OS X ensures the simplicity of plug-and-play. Drivers are also included for Windows 95/98/ME/2000 and Apple Mac OS 9.1 or later. The built-in USB-to-MIDI interface and USB bus-powered operation eliminates the need for additional gear or cables.

### features

- 88-note velocity-sensitive, semi-weighted action
- pitch bend and modulation wheels
